# UTM Tracking in Duda Website Builder

Create your contact form

**Generate strong leads**

Keep this form short and sweet.

Name:

Email:

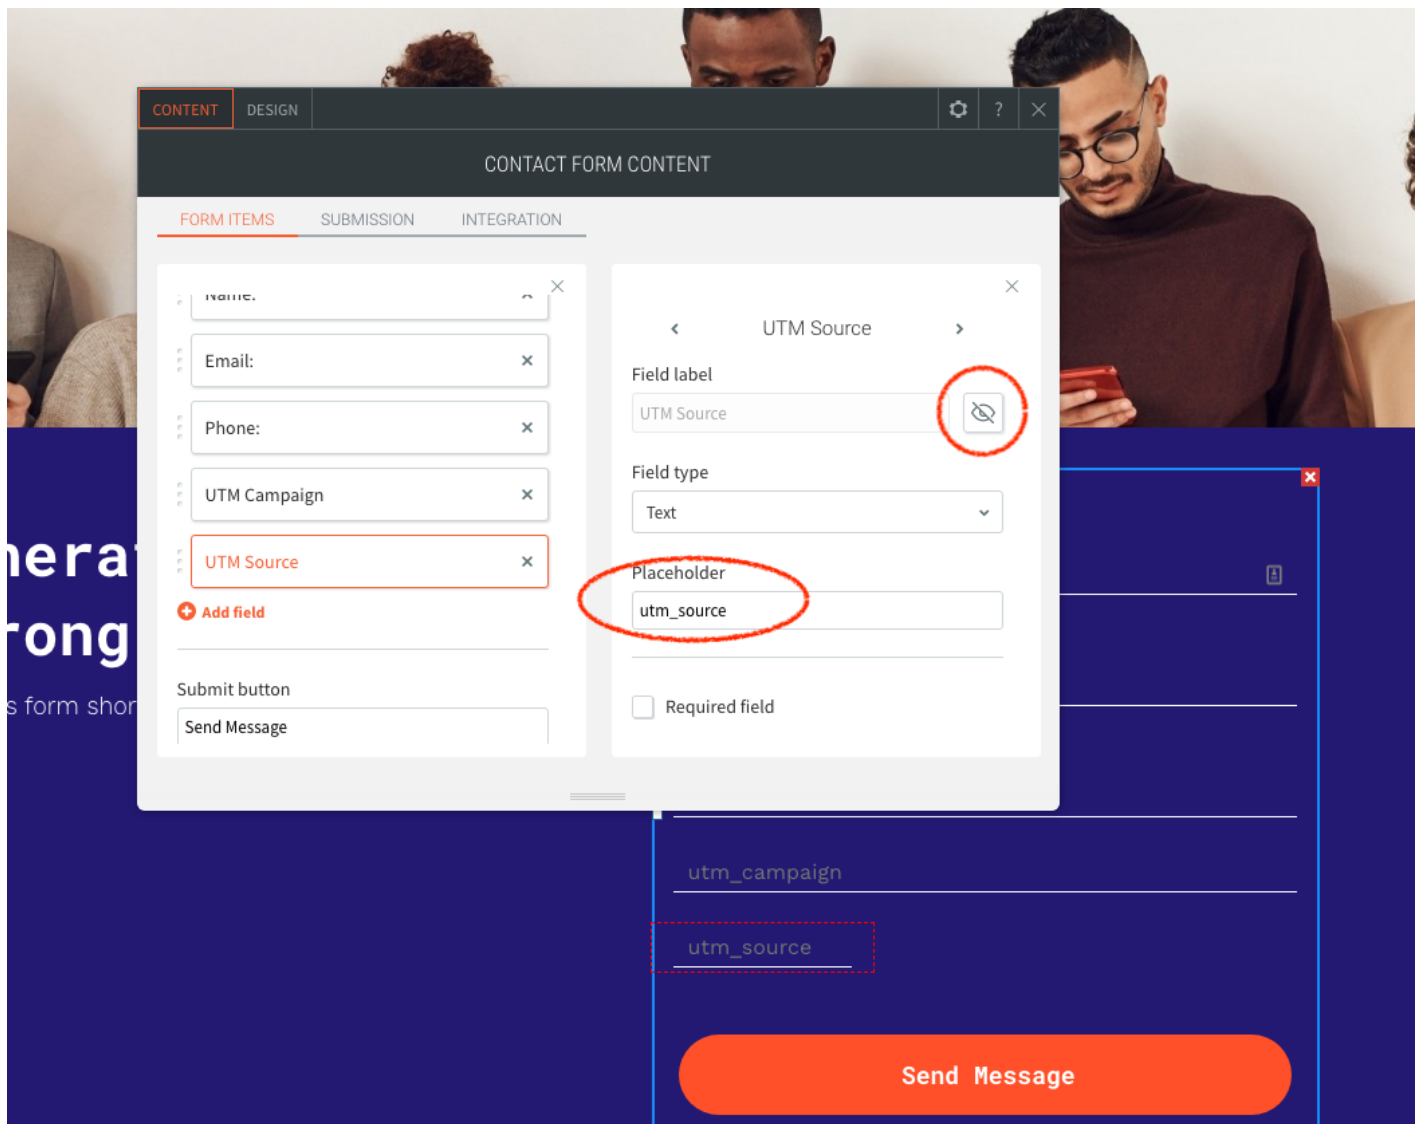

Phone:

**Send Message**

[+ Add Section](#)

## Add your Form Fields

- Hide the field label
- And make all the fields as text (don't worry, they will be hidden by the script below)
- Add our parameter name as placeholder (**This is very important**). See the list of the parameters here [What can I track with UTMSimple?](#)

Copy/Paste the script in Head HTML

# Result

---
